COUNTY CONTINUES ROAD RESURFACING PAVING PROGRAM

(SALEM, NJ)—Deputy Director Bruce Bobbitt, Chair of the County Public Works Committee, today announced that the County has contracted with R. E. Pierson Construction Company to continue the County's road resurfacing project in Mannington Township. Construction will begin on or about October 2, 2006 with a 60 day construction schedule.

"As in the past, this resurfacing project is being implemented in a way that will not force the closure of the roads being repaved," said Deputy Director Bobbitt. "Emergency vehicle right of entry and public access will be available at all times during this project. Access to homes and businesses will be open to all residents, visitors and business patrons."

Salem County Engineering is working with R.E. Pierson Construction Company to resurface Kings Highway in Mannington Township from Nimrod Road to CR-631, Haines Neck Road. Work hours will be 7am to 4pm, Monday through Friday, with no weekend construction planned. There will be no work on the following holidays: Columbus Day, October 9th; Election Day, November 7th; Veterans Day, November 10th; Thanksgiving and the day after, November 23rd and 24th, 2006.

"Our County Public Works Department has placed mobile electronic signage along Kings Highway to keep our travelers informed," said Bobbitt. "As information is received it will be posted and kept updated until construction begins."
