Jack also shared that the alternative school is starting this week and they are completely full which is a new thing for them to be filled at the beginning of the school year. They graduated 17 last year and 5 of those graduates are now attending college. They really like having the program at Salem Community College.

Tom Brown from Mid-Atlantic States Career and Education Center shared that they have been helping people get their criminal records expunged. If you have a client who needs their record expunged, please refer them to him 856-514-2138. They have found 3 things that typically keep a person in poverty:

2. transportation
3. lack of high school education

The kids were taught the safety aspects of fishing as well as how to cast and bait the hooks. At the end of the session the kids were given real fishing rods.

They also went to the Herr’s Potato Chip Factory which Noah loved. Its close and a great place to visit with the family.
