Every three years, the NJC's internal auditors also conduct an audit.

- b.) Claims reserves are subject to regular review by the Insurance Commission's Executive Director/Administrator, Attorney, Board of Commissioners and claims servicing company. Reserves on large or unusual claims are also subject to review by the claims departments of the commercial insurance companies or reinsurance companies providing primary or excess coverages to the Insurance Commission either directly or through the NJC JIF.

5.) The method of assessing contributions to be paid by each member of the Insurance Commission.

- a.) By November 15th of each year, the actuary computes the probable net cost for the upcoming Insurance Commission year by line of coverage and for each prior Insurance Commission year. The Actuary includes all budget items in these computations. The annual assessment of each participating member entity is its pro rata share of the probable net cost of the upcoming Insurance Commission year for each line of coverage as computed by the Actuary.
- b.) The calculation of pro rata shares is based on each member's experience modified manual premium for that line of coverage. The Insurance Commission's Governing Body also adopts a capping formula which limits the increase of any member's assessment from the preceding year to the Insurance Commission wide average increase plus a percentage selected by the Governing Body. The total amount of each member's annual assessment is certified by majority vote of the Insurance Commission's Governing Body at least one (1) month prior to the beginning of the next fiscal year.
- c.) The Treasurer deposits each member's assessment into the appropriate accounts, including the administrative account, and the claim or loss retention trust Insurance Commission account by Insurance Commission year for each type of coverage in which the member participates.
- d.) If a member entity becomes a member of the Insurance Commission or elects to participate in a line of coverage after the start of the Insurance Commission year, such participant's assessments and supplement assessments are reduced in proportion to that part of the year which had elapsed.
- e.) The Insurance Commission's Governing Body may by majority vote levy upon the participating member entities additional assessments wherever needed or so ordered by the Commissioner of Insurance to supplement the Insurance Commission's claim, loss retention or administrative accounts to assure the payment of the Insurance Commission's obligations. All supplemental assessments are charged to the participating member entities by applicable Insurance Commission year, and shall be apportioned by the year's assessments for that line of coverage.

- f.) Should any member fail or refuse to pay its assessments or supplemental assessments, or should the Insurance Commission fail to assess funds required to meet its obligations, the Chairman, or in the event by his or her failure to do so, the custodian of the Insurance Commission's assets, shall notify the Commissioner of Insurance and the Director of Community Affairs. Past due assessments shall bear interest at the rate established annually by the Insurance Commission's Governing Body.
- 6.) Procedures governing loss adjustment and legal expenses.
- a.) The Insurance Commission engages a claims service company to handle all claims. The performance of the claims adjusters is monitored and periodically audited by the Executive Director's office, the Insurance Commission Attorney, the NJC's attorney's office, as well as the claims department of the NJC's three major excess insurers (i.e. Star Insurance for excess liability and workers' compensation; Everest National and Star & Indemnity for excess liability). Every three years, the NJC's internal auditors also conduct an audit.
  - b.) Each member entity is provided with a claims reporting procedure and appropriate forms.
  - c.) In order to control workers' compensation medical costs, the Insurance Commission has engaged a managed care organization (MCO) *through the claims service company* whose procedures are integrated into the Insurance Commission's claims process.
  - d.) To provide for quality defense and control costs, the Insurance Commission has established an approved defense attorney panel with firms which specialize in Title 59 matters. The performance of the defense attorneys is overseen by the Insurance Commission Attorney, as well as, the various firms which audit the claims adjusters.
- 7.) Coverage to be purchased from a commercial insurer, if any.
- The Insurance Commission does not purchase commercial insurance.
- 8.) Reinsurance to be purchased.
- The Insurance Commission does not purchase reinsurance.
- 9.) Procedures for the closure of Insurance Commission years, including the maintenance of all relevant accounting records.
- a.) Not applicable at this time.

- 10.) Assumptions and Methodology used for the calculation of appropriate reserves requirements to be established and administered in accordance with sound actuarial principles.
- a.) The general approach in estimating the loss reserves of the Insurance Commission is to project ultimate losses for each Insurance Commission year using paid and incurred loss data. Two traditional actuarial methodologies are used: the paid loss development method and the incurred loss development method. From the two different indications resulting from these methods the Insurance Commission Actuary chooses a "select" estimate of ultimate losses. Subtraction of the paid losses from the select ultimate losses yields the loss reserve liability or Insurance Commission funding requirement.
- b.) The following is an overview of the two actuarial methods used to project the ultimate losses.
- Paid Loss Development Method - This method uses historical accident year paid loss patterns to project ultimate losses for each accident year. Because this method does not use case reserve data, estimates from it are not affected by changes in case reserving practices. However, the results of this method are sensitive to changes in the rate of which claims are settled and losses are paid, and may underestimate ultimate losses if provisions are not included for very large open claims.
  - Case Incurred Loss Development Method - This method is similar to the paid loss development method except it uses historical case incurred loss patterns (paid plus case outstanding reserves) to estimate ultimate losses. Because the data used includes case reserve estimates, the results from this method may be affected by changes in case reserve adequacy.
- 11.) The maximum amount a certifying and approving officer may approve pursuant to N.J.A.C. 11:15-2.22.
- \$10,000 for workers compensation claims
  - \$7,500 for liability claims
  - With the advance approval of the Insurance Commission Attorney or Executive Director, the certifying and approving officer may also pay hospital bills if waiting until after the next regularly scheduled Insurance Commission meeting would result in the loss of a discount on such bills. When the certifying and approving officer utilizes this authority, a report shall be made to the Commissioners at their next meeting.

Adopted by the Governing Body this 4th day of February 2016.

- **WC** – Increase \$250,000 to \$300,000 for all members. *Exception is Hudson County at \$750,000, Ocean County at \$750,000, ACIC at \$750,000 and SCIC at \$250,000.*

Following the public meeting, the Board of Fund Commissioners adopted the 2016 budget in the amount of \$21,461,623 and certified the assessments.

As the beginning of Snow Season is upon us, please remember these important best practices:

1. Work with your family to make sure your house and household are prepared for your absence during major snow events
  - Schools and daycares centers may also be closed. Make alternate arrangements for childcare.
  - Your sidewalks, walkways and steps also need to be cleared. Make arrangements to get this done even though you may be away for extended periods, possibly even days for some towns.
  - Make a list of tasks that must be done before an extended storm. Items on the list may include enough medications, food staples, childcare needs, salt & snow shovels,
  - Make contingency plans for electrical outages, or a problem with your homes' electrical, heating, or plumbing. Post emergency phone numbers for utilities and repair services
2. Remember these safety guidelines for plowing snow
  - Come to work well-rested and hydrated. Eat a light meal.
  - Bring your go-bags packed with spare clothes, gloves, socks, hat, medications, and healthy snacks & drinks.
  - Do not use your cell phones when driving / plowing. Your full attention must be on driving.
  - Watch your speed! Operating at the safest speed will maximize visibility and stopping distance. The proper speed will also reduce wear-and-tear on our equipment. It will also reduce claims from damage to mailboxes, parked vehicles, and other private property. IF you do damage any property, either municipal or private, **[INSERT YOUR REPORTING PROCEDURE]**.
  - Be alert when plowing snow on overpasses and bridges. Snow can be thrown over the sides onto vehicles or even people passing underneath.
  - Take breaks! Stay alert. Monitor yourself for drowsiness and take action.
  - Your amber warning lights must be turned on. Do not direct traffic around your plow. If you get out of the truck, wear your high-visibility vest or jacket.
  - Drive defensively. You are professional drivers. We know other drivers are not. You must make allowances for them. Maintain a safe following distance. Slow down if you are tailgated. Have a plan for difficult locations on your route. If you see a motorist or pedestrian in trouble, **[INSERT YOUR PROCEDURES]**.

Shoveling snow is a lot of work, and it is easy to injure yourself if you are not using the right technique. On average 1,200 people die as a result of shoveling snow each year. Add heart attacks and back / shoulder injuries and slips and falls, and snow shoveling is one of the most dangerous activities people can attempt.

"Warming up" is not about body temperature, but is a way of using slow, gentle exercise to increase blood flow and flexibility to the muscles and joints that will be used. Professional athletes know the importance of warming up. Let's learn from them and warm-up before shoveling tons of snow.

### Tips for Safe Snow Shoveling

- **Dress appropriately.** Wearing layers will allow you to adjust to the temperature outside. Be sure to dress warmly enough and cover your head, face and hands when outside for prolonged periods of time. If you become overheated, take a break from shoveling.
- **Pick the right waterproof boots.** They will want to protect their feet from the cold as well as keep them dry. Wear non-skid boots to guard against falls on slick snow or hidden ice.
- **Pick a small shovel.** Depending on how wet the snow is; a shovel full of snow can weigh up to 15 pounds! Selecting a smaller shovel means lighter loads of snow which can help prevent injury to the body by creating less strain. An ergonomic snow shovel with a curved handle or an adjustable handle length will minimize painful bending in snow removal chores. Use a silicone lubricant on the shovel. This will help the snow slide off easier.
- **Stay hydrated.** Water plays an important role when people exercise, even in winter. Carry a water bottle and take a few sips after every 15 minutes of shoveling snow.
- **Shovel frequently.** Shovel every time the snow fall is about 2 inches. This will help lessen the load and make snow shoveling more manageable. In deep snow, remove a few inches at a time, rather than attempting to shovel the full depth at once
- **Use the big muscles of the legs and not the back.** Make sure that your knees are bending and straightening to lift the shovel instead of leaning forward and straightening back up with the back. Avoid twisting the back to move snow to its new location – always pivot your whole body to face the new direction
- **Push the snow.** It's easier to push the shovel full of snow to a good location instead of lifting and throwing the shovel full of snow.
- **Separate the hands on the shovel.** Keep your hands about 12 inches apart to increase your leverage and provide greater stability and minimize the chances of injuring your lower back.
- **Avoid caffeine & nicotine before shoveling.** Caffeine and nicotine act as stimulants by increasing the heart rate and constricting blood vessels which puts more strain on the heart.
- **Set a time limit.** Shoveling snow is a hard work. You may be shoveling for up to an hour or more. When feasible, come inside after 20-30 minutes and start again.
- **Most importantly, listen to your body.** Stop if you feel pain, and let someone know.

**EXECUTIVE DIRECTOR REPORT:**

**2016 Property & Casualty Budget Introduction:** Attached on page 3 for your review and discussion is the 2016 proposed Property & Casualty Budget in the amount of \$1,498,979.00. The introductory budget represents a 2.98% increase Commission wide compared to the 2015 budget.

Executive Director reviewed the Budget and said the overall increase for the 2016 Budget is at 2.98%. Executive Director said the Commission has had a few rough years which is reflected in the claims - as those line items for property, liability, auto and workers compensation are each increasing by 7.50%. The CEL Budget actually dropped drastically so they discussed last week it would be beneficial to start a Loss Fund Contingency - line item number five in the budget. This would act as a buffer in the case next year we have some losses on the workers comp line it would be another pool that we can draw from, and on the flip side if we continue to have a good year next year it would be a surplus line item that could help with the prior bad years we had. Executive Director said the funds in line number five actually come from line item nine where the CEL JIF premium went down \$111,288 and what caused that was the excess workers comp line the CEL decided could shift to different entities. Executive Director said the Total Fund Expense and Contingency had a modest increase of 1.45% and the Ancillary Coverages line 41 is \$10 million more in flood coverage and the aviation does include some drone coverage. The Fund is at a little over \$43,000 increase over 2015.

Risk Manager Narolewski said we had a bad property loss here so that is not too bad considering what we went through. In response to Attorney Mulligan regarding an increase in the self insured retention, Executive Director said that would be an option the Commission would like to take a look at next year we can certainly entertain that. Executive Director said with no further questions being heard a motion to introduce the 2016 Budget would be in order.

**MOTION TO INTRODUCE THE 2016 PROPERTY AND CASUALTY BUDGET IN THE AMOUNT OF \$1,498,979 AND SCHEDULE A PUBLIC HEARING AND ADOPTION ON FEBRUARY 4, 2016 AT 9:00 AM AT THE COUNTY OLD COURTHOUSE**

**Certificate of Insurance Issuance Report:** Executive Director reported the Certificate of Insurance Issuance Report was included in the agenda from the CEL listing those certificates issued for the period of September 21, 2015 to November 23, 2015. There were 5 certificates of insurance issued during this period.

**MOTION TO APPROVE THE CERTIFICATE OF INSURANCE REPORT**

**NJ Excess Counties Insurance Fund (CELJIF) -** The CEL met on October 22, 2015. A summary report of that meeting is included in the agenda on Pages 4 and 5. The CEL held a Public Hearing on November 19, 2015 to adopt the 2016 Budget. The Executive Director will provide a verbal

update of that meeting at the Commission meeting. The next meeting of the CEL will be held on February 25, 2016 at 1:00 pm.

Executive Director said the CEL is issuing dividends to the Camden and Gloucester Commissions. They are charter members in 2010 and that is where the dividends are coming out of. Executive Director said the Salem Commission is in line for future dividends in a few years as long as we are in the positive in those particular years - we became a member in 2012. This is good news and a milestone for the CEL.

**Financial Fast Track** – Included on Page 7 & 8 of the agenda are the Financial Fast Tracks for the Salem County Insurance fund Commission for August and September. As of September 30, 2015 the Commission has a deficit of \$461,693.

**NJ CEL Property & Casualty Financial Fast Track** – Executive Director said included in the agenda on Page 9 was the NJ CEL Financial Fast Track Report as of September 30, 2015. The CEL has a surplus of \$5,123,726.

**Claims Tracking Report:** The Claims Activity Report was included on page 10 of the agenda. The Claims Activity Report tracks open claims; the Executive Director review the report with the Commission and said there were 9 new claims reported for September and October and of the nine 6 were workers comp claims during that time period.

#### **SAFETY COMMITTEE REPORT**

Glenn Prince reported the Safety Committee last met on September 23, 2015. In addition to the regular safety committee meeting the members had an opportunity to review the active shooter video that was done by the Woodstown High School students that was done at the actual active shooter training here in Salem County on October 15<sup>th</sup>.

#### **CLAIM COMMITTEE REPORT**

Claims Manager Danielle Batchelor reported the Claims Committee last met on November 17<sup>th</sup> and discussed several PARs that will be for discussion today. Additionally in the agenda packet we do have several ancillary coverages that are expiring on December 31, 2015, which are your public officials, EPL, medical malpractice, crime and cyber coverage. Please take sweep to any potential claims and report to your Risk Manager by December 18, 2015.

### **CEL SAFETY DIRECTOR REPORT**

Safety Director reviewed the report included in the agenda. Mr. Prince said he had spoke to Commissioner Coleman and Risk Manager Narelewski regarding an ergonomics situation and report from 51 Chaney Road and as you may recall back in April 2014 we requested to do a similar assessment a the Board of Elections. It was my understanding we were able to save the county a significant amount of money since they were requesting all new furniture. We were able to make adjustments to chairs, monitors and equipment which was quite successful. We will be conducting that assessment again at 51 Chaney Road.

### **CLAIMS SERVICE:**

Ms. George reviewed the First MCO report and provided a summary of savings report and the PPO Penetration rate.

**OLD BUSINESS:** Attorney Mulligan said in regards to the Coverage Schematics on page 13 of the agenda the Camden County has relatively low self insured retentions of \$3,000 and \$5,000 compared to the Salem County which has higher self insured retentions of \$50,000 on each claim, as well as \$100,000 dividends being given to Camden County. Executive Director said that is the level they chose and their premiums reflect higher premiums for the lower deductibles. Executive

Director said when Salem join we kept everything at the current level but we can certainly look into different self insured retentions and the premium that reflect those retentions.
