- SCIA –
  - SCIA Board and the County will be dissolving Economic Development and placing with the County.
    - They can no longer afford to fund the division as it has been running at a $100K deficit that past two years and it was previously funded ‘outside’ the SCIA.
    - Without these additional funds, they only have the revenues from the Solid Waste Division and they cannot sustain it as it is currently structured.
    - It will eliminate duplication of services yet both entities will continue to perform Economic Development, just going back to the original core mission with the County being the ambassadors (in conjunction with the SCIA and the SCEDC) and the SCIA providing the various funding options at their disposal.
